Hellenic Research and Educational Institute for the Road Safety and the Prevention & Reduction of Traffic Accidents "Panos Mylonas"

- **Introduction – who we are**
- **Traffic Safety and Mobility Education in the Greek National Education System**
- **RSI Collaboration with the Greek Ministry of Education**
- **RSI School Programmes**
- **RSI Framework on Traffic Safety & Mobility Education**

Introduction: Who we are

Hellenic Research and Educational Institute "Panos Mylonas" for the Road Safety and the Prevention and Reduction of Traffic Accidents.

Established on May 12th 2005 after the tragic loss of Panos Mylonas, a 22 year old University student of Mechanical and Aeronautical Engineering and WRC accredited journalist.

RSI is a non-for-profit Organization founded by University institutions, private entities, an audit company and a large number of agencies and volunteers.

2005-2020

15 Years of Action!

Our Vision

"a world without road crashes"

Our Mission

To increase Society's awareness for traffic safety culture and safe behavior of road users

To support the Government and stakeholders to act for the prevention of traffic crashes

Introduction: Who we are

RSI Credentials

- ✓ UN ECOSOC in Consultative Status for Road Safety issues on youth
- ✓ National contact point for the European Road Safety Charter (ERSC) and management partner for a cluster of 7 European Countries
- ✓ Member of the European Transport Safety Council (ETSC)
- ✓ Affiliate Member of Fédération Internationale de l'Automobile (FIA)
- ✓ Member of the International Road Federation (IRF)
- ✓ Member of the Global Alliance of NGOs for Road Safety
- ✓ Member of the National Road Safety Council (ΕΣΟΑ)
- ✓ Awarded with the Europeans Citizen's Prize by the European Parliament
- ✓ Honored by the Swedish Government for the initiation of the idea of ISO 39001:2012 for Road Traffic Safety Management

Traffic Safety and Mobility Education in the Greek National Education System

Primary Education

Traffic Safety is not a dedicated subject.

A minimum number of hours is required by law.
The number of hours varies per grade and each school year.

Implemented by the class teacher or a teacher who has undertaken the responsibility to coordinate traffic education.

Teachers are not officially trained in traffic safety education while on their studies at college.

- External experts – Road Safety NGOs/Traffic Police - are usually invited to deliver programmes.

Secondary Education

Not a dedicated subject

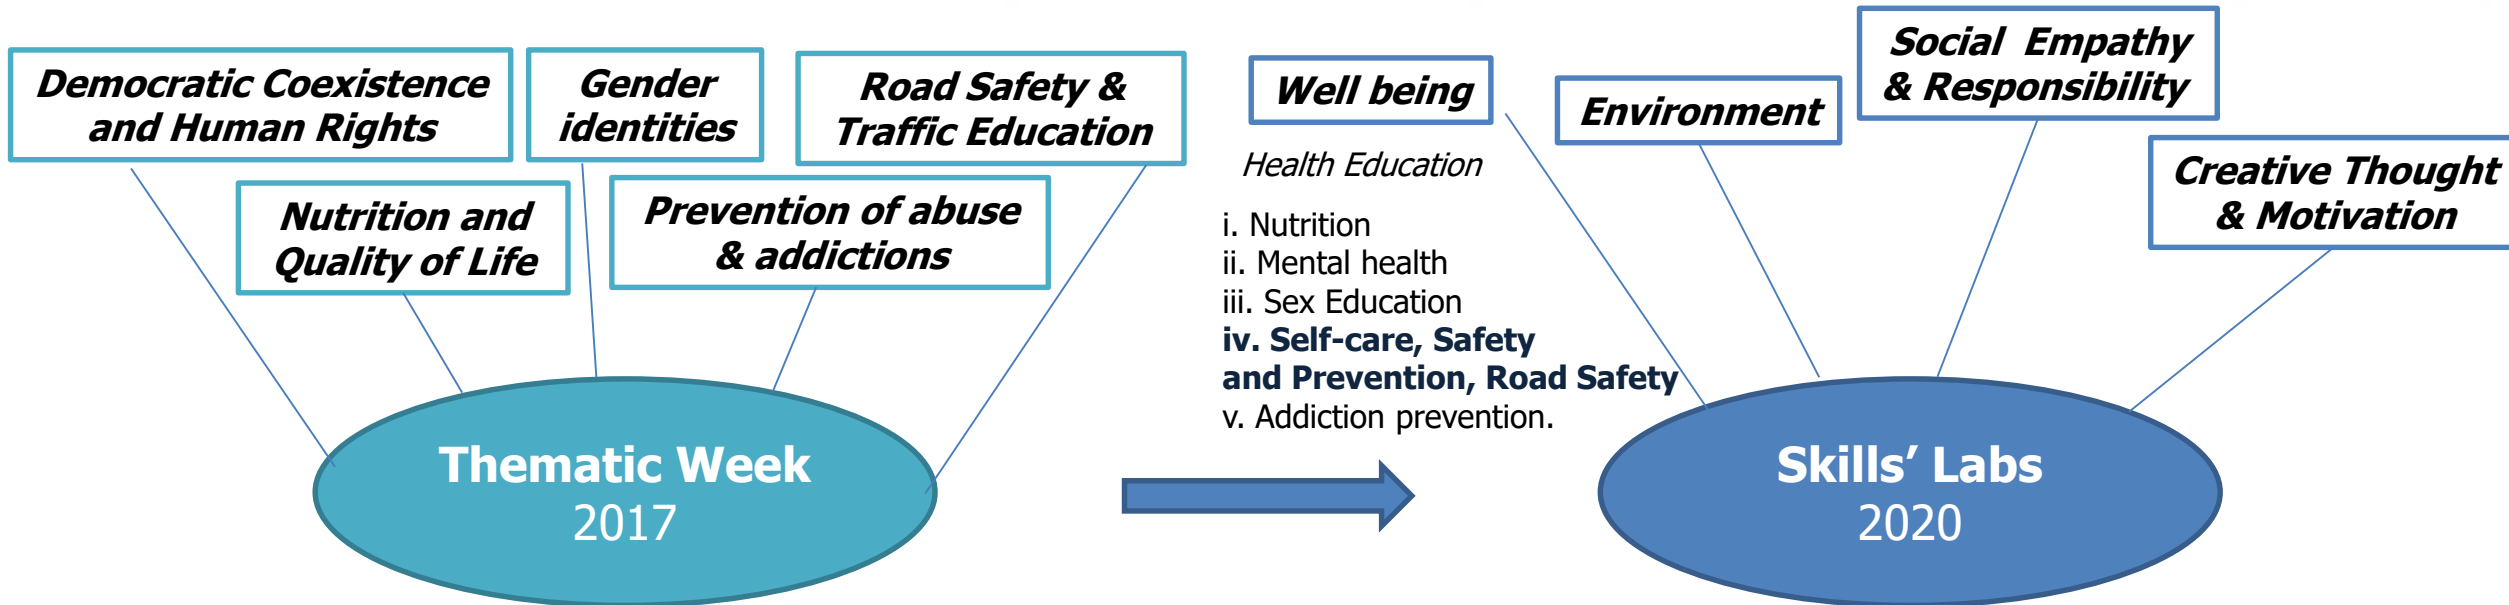

No legal minimum requirement of teaching hours

By a teacher who has undertaken the responsibility to coordinate a traffic education project in one or different grades and classes.

Thematic Week: Teachers can voluntarily choose to integrate road safety topics in their lesson plans for one week during the school year (next slide)

External experts are usually invited to teach

Traffic Safety and Mobility Education in the Greek National Education System

- A week of the school year was dedicated in one of the above topics.
- Teachers would link their lesson plans to the topic (e.g. a mathematician would use road safety data while teaching statistics)
- Experts were invited to deliver relevant programmes.

- Integration in the mandatory weekly timetable, running throughout the year
- Project based. Experiential learning while mastering the 21st Century Skills.
- Experts are also invited to deliver relevant programmes.

RSI Framework on Traffic Safety & Mobility Education

Through the use of simulators and experiential exercises

Experiential character

Cooperative learning

Working in small groups of students promoting teamwork in the activities

Linking road safety to the curricula and the individual educational subjects

Interdisciplinary approach

Pedagogical background of trainers

Trainers with educational experience (Graduates of pedagogical schools, psychologists, sociologists, engineers)

RSI Framework on Traffic Safety & Mobility Education

Objectives

- A.** Prevention of injuries and deaths on the road
- B.** Health promotion and prevention of unsafe behaviors
- C.** Participatory learning and action
- D.** Empowering participants' initiative
- E.** Enhancing communication and teamwork

Improve Traffic Safety Culture

Coordinator

Partners:

Funded by:

The aim of the **KROS project** is to bring a change on how road safety programs and initiatives are implemented in schools across Europe, by strengthening the profiles of the teaching profession on road safety issues.

Objectives

- To improve teachers' **awareness** on road safety issues
- To improve teachers' **professional skills** on road safety principles and best practices integration into lessons
- Provide ideas for road safety **projects** and **lesson plans**

**1 Week
3h Courses
All professions**

Who can attend?

- ✓ Teachers
- ✓ School Heads
- ✓ Curriculum developers
- ✓ Policy makers
- ✓ Educational Authorities' representatives
